ORDER:

The Engineer-in-Chief, Indira Sagar Polavaram Project, Dowlaiswaram in his letters 1st, 3rd and 5th read above has stated that the Bhupathipalem Reservoir Scheme is proposed across Seethapalli vagu near Bhupathipalem village to irrigate an ayacut of 9343 ha (23,086 acres) in the tribal areas of Rampachodavaram and Gangavaram mandals of E.G. District and also to provide drinking water facilities for 33 villages enroute the canal. The works of excavation of main canal and its distributaries including CM&CD works awarded to M/s MCL – RSR (JV) was completed. During course of execution, it was found that the total ayacut has come to 14,028 acres against total contemplated ayacut of 23,086 acres. The main reason for reduction in ayacut is hilly terrain of the command area. The State Level Standing Committee and IBM Committees finalized the amount of reduction of agreement value by Rs.4.81 Crores due to reduction of ayacut from 23,086 acres to 14,028 acres. The Engineer-in-Chief, Indira Sagar Polavaram Project, Dowlaiswaram has requested for orders on the issue of reduction of ayacut and corresponding reduction in contract price of the package awarded to M/s MCL – RSR (JV), Rajahmundry.

2. In the circumstances reported by the ENC, Indira Sagar Polavaram Project, Dowlaiswaram Government after careful examination hereby accord permission for reduction of agreement value by Rs.4.81 Crores (Rupees four crores eighty one lakhs only) due to reduction of ayacut from 23,086 acres to 14,028 acres for the work of “Investigation, Design, Estimation, Excavation of Main Canal, Branch Canals and its Distributories, Filed Channels, including construction of CM & CD works to feed an ayacut of 23,086 acres in East Godavari District” under Bhoopathipalem Reservoir Scheme.
3. The ENC, Indira Sagar Polavaram Project, Dowlaiswaram shall take further action accordingly.
